

The logo features the text 'E-BLUE' in a large, metallic, 3D-style font with a brushed metal texture and a slight shadow. The letters are set against a dark blue background with a pattern of hexagons of varying shades and sizes, some of which are semi-transparent, creating a layered, futuristic effect.

### E-BLUE Company intro

E-Blue Gaming is a 16x award winning Gaming Furniture and Gaming Peripherals Manufacturer that started in 1999 by a group of passionate gamer's from Japan and China. Being acknowledged as an emerging force of nature in the gaming world by the likes of Disney, PC and Gamer Magazine plus many others, we feel it is the perfect time to expand our brand into house holds around the world. Our goal is to provide an unrivaled gaming experience to our customers and users so that they are comfortable, stylish and perform at their best during their most intense moments of gaming.

**BEST design gaming chair**

**E-Blue Cobra-X gaming chair  
Redefines Awesomeness**

Let's all take a moment and imagine the most comfortable place you can be. For you, maybe it's a giant pillow stuffed with goose feathers, for others it might be that leather couch that they fell in love with from the first time they sat in it at the furniture store, Do you have the place in mind? Forget it. The correct answer, to the question I don't ask, is the E-blue Cobra-X professional Gaming chair. Seriously, my first reaction when sitting down in the chair for the first time was "OOOH!" This chair is just that comfortable, actually, that ways my second reaction. The first was "who the heck is E-blue?"

## Our Awards

**Best & Most Comfort Gaming Chair**

**E-blue Auroza XI Gaming chair**

E-blue is the most comfortable we've tested, with high-quality materials and adjustable ergonomics, it also features an LED lighting system that is totally unnecessary but cool nonetheless, consider a throne from our guide to the best chair.

**Cobra Chair won "Best Editor Choice" award**

**The BEST Gaming Chair  
we've ever seen"**
